

I Feel Your Love

Laura Marling

Keep your love around me
Keep your love around me
So I can never know what's going on
What's going on

Let the river answer
Let the river answer
So I can be alone
An electric fence
Silent defense to you all

You must let me go before I get old
I need to find someone
Who really wants to be mine
I feel your love

Keep your love around me
Keep your love around me
So I can never know what's going on
What's going on

Let the river answer
Let the river answer
So I can be alone
An electric fence
Silent defense to you all

You must let me go before I get old
I need to find someone
Who really wants to be mine
I feel your love
Please let me go

Keep your love around me
Keep your love around me
So I can never know what's going on
What's going on

Keep your love around me
Keep your love around me
So I can get along
An electric fence
Silent defense to you all

You must let me go before I get old
I need to find someone
Who really wants to be mine
I feel your love
Please let me go
Please let me go
Please let me go
