

Make Me Lovely

Laura Mvula

I can't make you love me
You can't make me lovely
Please don't try to hold me down
It's over now
I will go where you can't find me

I don't think I can trust you
I don't know what I'm supposed to do
We got lost when we went too far
Give back my soul and take my heart

I can't make you love me
You can't make me lovely
Please don't try to hold me down
It's over now
I will go where you can't find me

Don't want the world
Lose my soul
Don't want the world
Lose my soul

I can't make you love me
You can't make me lovely
Please don't try to hold me down
It's over now
I will go where you can't find me

I don't need love to rescue me
I'll be all that I choose to be
When the sky fills with falling stars

I can't make you love me
You can't make me lovely
Please don't try to hold me down
It's over now
I will go where you can't find me

Don't want the world
Lose my soul
Don't want the world
Lose my soul
