

# Overcome

Laura Mvula

When your heart is broken down  
And your head don't reach the sky  
Take your broken wings and fly

When your head is heavy, low  
And the tears they keep falling  
Take your broken feet and run

With the world upon your shoulders  
Nowhere left to hide  
Keep your head up carry on

It ain't no time to die  
Even though we suffer  
Come together we pray

Round the mountain all God's children run  
Round the mountain all God's children run  
Round the mountain all God's children run  
Round the mountain all God's children  
God's children run run round the mountain run  
Round the mountain all God's children  
God's children run run round the mountain run  
Round the mountain all God's children run
