You are light
The same energy that make the sun shine bright
You are light, yeah light
You're the energy
Atoms and light
Atoms and light

Sage's light
Oh and Edison, he made two sparks ignite
All you do, all you do
It's scientific chain reaction
It'l come back to you
You, you, you, better do it right

In your flight
Send your love out to the planet's soul
'Cause all are one, all are one
And all living thingds, they need some light to grow
Oh, ooh, oh, ooh, ooh
Light

You are light
You're the energy
Oh
Oh, light
Oh, oh
The energy
