

# The Brighter Song

Laura Nyro

You are a free woman  
You understand the earth  
You say you want an end to violence  
Feel safe in the universe  
Sister, believe  
You are stronger, brighter  
Your dream's a little wilder  
Sister, believe  
Sister, believe in your happiness

You are a green peace dreamer  
You understand the earth  
You say you want to save the sea  
And skies of the universe  
Sister, believe  
You are stronger, wilder  
Your moon's a little brighter  
Sister, believe  
Sister, believe in your happiness

Sweet and shining dreams  
They burn  
And your light  
Shine it free and bright  
And if the world can't see it  
Give it to the wild night

You are a romantic woman  
Sweet and rare  
You are young  
And you are old  
Black and white  
You're everywhere  
Sister, believe  
You are stronger, wilder  
Your moon's a little brighter  
Sister, believe  
Sister, believe in your happiness  
Don't forget your happiness
