

Life Is Good Blues

Laura Veirs

Life is good when you dance all night
And the world transmits electric power
Messages you send to Mars
Came from a crown of flowers

Have we danced away the hours?
Have you danced away the hours?

Life is good when the band is smokin' hot
The drummer drums, 'cause it's the last chance that he got
Boats light up the river in a string of flame
Life is good

When you know he feels the same thing
When you know he feels the same thing

Go in soft like the dawn and tender green
Like the shoots of spring unfurling on the lawn
Over dale, over dale
Over sea swell, over sea swell
Never play the devil's pawn

Cause you know he'd do the same thing
Yeah you know he'd do the same thing
Yeah you know he'd do the same thing
Yeah you know he'd do the same thing
