

Marianas Trench

Laura Veirs

I've got nothing to say
But hey you're lost beautifully
I've got nothing to say
But hey you're lost beautifully

And the waves keep turning silently
This scene goes by unseen
And the waves keep turning silently
This scene goes by unseen

The water's clear but you can't drink it
Thirsting for a fresh water mind
Have you chosen that current
Or are you in a riptide
I came to swim with you
Said can I join you for the ride
The sea got saltier when we cried

And the waves keep turning silently
This scene goes by unseen
And the waves keep turning silently
This scene goes by unseen
