

# Atomised

Laura Welsh

This, this won't be the last time that I fall for you  
Close, never quite enough to make a different truth  
In space, every inch and everything is occupied

Our shapes, that seem to disappear and multiply  
Don't let the anger rise  
We said that we cut these ties

If only you had let me know  
If only you had let me know  
If only you had let me go  
We might have seen a different side  
Ha, ha, ha, ha, ha

Before we atomised  
Ha, ha, ha, ha, ha, ha, ha  
Before we atomised  
Ha, ha, ha, ha, ha, ha, ha

Your face  
Speaks a thousand words  
But you don't say a thing

I brace, brace myself I know the crash is imminent  
Don't let the anger rise  
We said that we cut these ties

If only you had let me know  
If only you had let me know  
If only you had let me go  
We might have seen a different side  
Ha, ha, ha, ha, ha

Before we atomised  
Mm, Mm, Mm, Mm

So don't speak of the answer  
Just keep it in this room  
You could tell me the story  
But we let it start too soon

If only you had let me know  
If only you had let me know  
If only you had let me go  
We might have seen a different side  
Ha, ha, ha, ha, ha

Before we atomised  
Ha, ha, ha, ha, ha, ha, ha  
Before we atomised  
Ha, ha, ha, ha, ha, ha, ha
