

Sunlight on the Faded

Laurel Halo

Falling into your 307
Only the best memory stay
I just want the song live forever
Only the best memory stay

You're the type that likes to keep a secret
Like a house of birds and dance
Did you really think, think it matters?
Sunlight on the faded
Sunlight on the faded
Sunlight on the faded
Sunlight on the faded

You really think that you matter
I see in it now
You really think that you matter
I see in it now
Sunlight on the faded

Falling into your 307
Only the best memory stay
I just want the song live forever
Only the best memory stay
Only the best memory stay
Only the best memory stay

Sunlight on the faded
You really think that you matter
I see in it now
Sunlight on the faded
You really think that you matter
I see in it now
Sunlight on the faded
Sunlight on the faded
Sunlight on the faded
Sunlight on the faded.
