

## She's a Wildflower

Lauren Alaina

She was the kind of girl that never quite fit in  
Holes in her shoes and freckles on her skin  
Every time she saw those school doors open wide  
She'd wanna turn around and run back home and hide  
Yeah yeah yeah, oh

Got used to being stuck at the back of the line  
The kind that kept her head down most of the time  
Secret dreams 'bout the boy in the high school band  
And then wake up thinking she'd never had a chance

She's a wildflower  
That's waitin' on a sunny day  
Just waitin' on the winds of change to blow  
Just a red hot spark that's looking for a little flame, yeah  
Trying to find the perfect place to grow  
She's a wildflower  
She's a wildflower

She makes a wish on every single star she sees  
Yeah somewhere deep down she still believes  
She prays every night before she goes to bed  
Pretty soon her life is gonna change  
She just doesn't know it yet

She's a wildflower  
Just waitin' on a sunny day  
Just waitin' on the winds of change to blow  
Just a red hot spark that's looking for a little flame, yeah  
Trying to find the perfect place to grow  
She's a wildflower  
She's a wildflower

She's a wildflower  
Just waitin' on a sunny day  
Just waitin' on the winds of change to blow  
Just a red hot spark that's looking for a little flame, yeah  
Trying to find the perfect place  
Yeah she's trying to find a place  
She's a wildflower that's waiting on a sunny day  
She's the secret that nobody knows  
She's a wildflower, she's a wildflower, she's a wildflower
