```
Suicide when IDm not with you.
Shutter fly of sparks when I kiss you.
Butterflies at the sight of you.
And my heart will never be the same again.
Oh oh, never forget all the things that I told you.
Oh oh, IOm never gonna let you down cos,
Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, IOll be there.
ID11 be there when your heart is breaking,
ID11 be there when your walls are shaking.
ID11 be there when your hope is fading, oh.
The universe stops when you□re with me,
Fireworks burning endlessly,
Won It close my eyes, and I won It miss a thing,
Cos my heart will never be the same again.
Oh oh, never forget all the things that I told you.
Oh oh, IDm never gonna let you down cos,
Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, IDll be there.
ID11 be there when your heart is breaking,
ID11 be there when your walls are shaking.
ID11 be there when your hope is fading, oh.
No matter where you are,
No matter what you do,
A thousand miles apart, IO11 be there cos,
Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, IDll be there.
ID11 be there when your heart is breaking,
ID11 be there when your walls are shaking.
ID11 be there when your hope is fading, girl I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
```

Everywhere you go, IOll be there.

Suicide when IDm not with you.
