

Hold Me

Lazlo Bane

I been waiting for the Sun
To brighting up my day
You know you cheer the only one
To drive the tears away

So hold me, hold me
make everything alright
show me you love me tonight

Sometimes I want to run away
So far away from here
The only thing that makes me stay
Is when I hear you say that you'll...

hold me, hold me
Make everything alright
Show me you love me tonight

Well, I can fly around this world
and it may seem like something
but it don't mean nothing
Only the thing I want right now is you

Well, I can fly around this world
and it may seem like something
but it don't mean nothing
I don't care if you're a boy or a girl
Only something, just keep us going
All I really need right now is you

So hold me, hold me
make everything alright
show me you love me tonight, tonight

So hold me, hold me tonight
Show me you love me tonight
