

Novakane

Lazlo Bane

Drill into where I chew
Fight the tears are falling
Down my neck and rolling
Please hold still

Sit up and rinse away
See the blood down the drain
Grin and bear the pain
Where's my novakane
Where's my novakane

I'm with you
I turn into
A pulmonary bastard
My heart starts beating faster
Please hold still

Giving it all away
Faking since saraday'
Grin and bear the pain

Where's my novakane

Where's my novakane

Leave it up to me
So you can lapse into a dream
Feel numb comes to the lane
Extended holiday
Please don't slip away

Where's my novakane
Where's my novakane

It's no use
I always lose

Sit up and rinse away
See the blood down the drain
Grin and bear the pain
Where's my novakane
Where's my novakane
Where's my novakane
Where's my novakane
