

# No Ordinary Love

Leah McFall

Baby

I'll cross the world to be with you  
I'll sail the sea, dive in the blue  
I'll ride the wind across the sky  
I'll travel low I'll travel high  
I won't complain, I'll take the train  
I'll ride the aeroplane

To see my, see my baby, baby  
This is no ordinary love love love  
This is the kind of love that dreamers dream of

Baby

This ain't no ordinary love  
You bring me joy you pick me up  
You got me walking on a cloud  
You turn me on you turn me out  
You are my love and your my friend  
You are my everything

You my, you my, baby, baby  
This is no ordinary love love love  
This is the kind of love that dreamers dream of

Let me love ya, love ya, love ya, love ya  
Let love you, love you, let me love you, love you  
Love ya, love ya, love ya, love ya  
Let love you, love you, let me love you, love you

This is no ordinary love love love  
This is the kind of love that dreamers dream of
