

All I Wanted

Leatherface

Well all I wanted was to get on my feet
But you're guaranteed a kick in the teeth
It's all I want out of life as my body is a heap and I cut I bleed
And we're all going to seed a lot of people in my brain and I'm totally sane
For the last twenty years we've had the same love song
For the last twenty years I've known what is wrong
For the last twenty years we've had the same love song
Well all I wanted was happiness now I could not care less
Nobody knows my name things remain much the same
All I wanted was something new then something else to abuse
Give us industry something to achieve
For the last twenty years we've had the same love song
For all of that twenty years I've known what is wrong
For the last twenty years we've had the same love song
Well all I wanted was Adam and Eve start such a mess I can see
When all I was asking for is a little economic war
We all watched the bottle dance all we want is to be safe
Talk about have enough distribution of the wealth
For the last twenty years we've had the same love song
For all of that twenty years I've known what is wrong
For the last twenty years we've had the same love song
Then for all of that twenty years I've known what's wrong
That's all I need it's all I need it's all I need it's all I need
For that twenty years that's all I need
