

## Eggbound

Leatherface

She only smoked weed so she'd like what's been on mtv  
At least that's what she found  
She could kiss while she shelled oysters  
In her boyfriend's big open gob now that made me frown  
Have you ever been to New Orleans  
Yes but I might as well have been a long way down  
He holds his head as if he's eggbound  
He holds his head as if he's eggbound  
She's not averse to forgetting her purse  
Especially when there's beer around  
She'd lick the ground  
She not only likes that John Smith shite  
Her favourite though is Sunny Delight  
Now that's eggbound  
She went away to find herself  
She lost her mind but found some shorts  
She's lucky like that  
She went to see that band Black Grape  
She took something and it went pear-shaped  
That's a long way down  
She holds her head as if she's eggbound  
She holds her head as if she's eggbound  
She holds her head as if she's eggbound  
She holds her head as if she's eggbound  
She only smoked weed so she'd like what's been on mtv  
At least that's what she found
