

## Isn't Life Just Sweet?

Leatherface

I can't design, I can't design my life.  
Decisions can be made in our name, that is the way.  
And isn't life just sweet?  
For the morally bereft on fat seats.  
And isn't life just sweet?  
For the villains of the piece.  
And isn't life just sweet?  
A design for life taken neat.  
And isn't life just sweet? All of it!

I can smile a while, smile a mile wider than you.  
Am I world weary? That remains to be seen.  
Ballet is banned in Turkmenistan.  
I hold up my hands, I will never understand.  
And I forgive you. And I believe you.  
I can't kill you.  
But I forgive you. And I believe you.  
But I can't kill you.  
I forgive you. I believe you.  
But I can't kill you.
