

Razor Blades And Aspirin

Leatherface

Do you know what it's like to take a man's life
To leave somebody lonely cynical and tired of it all wisened and waiting
I need a break I need razor blades and aspirin
They're good guns they are good guns
When Michael hears things hears things no good he will put things right
As Michael rides a bike he kills everything in sight
Bend and break I need razor blades and aspirin
They are good guns they are good guns
They bend and break and they're put out of action
Reaching for razor blades and aspirin
I need a break I need razor blades and aspirin where are the guns
They bend and break they're put out of action
Reaching for razor blades and aspirin
I need a break razor blades and aspirin where is the rope
I need a break I need razor blades and aspirin they are good guns
