

Find The Love

Lee Aaron

When I first met Keri
She was just an ordinary
Girl with a heavy world to rise above
Broke, four kids, a broken down van
And a broken down man but she's still loved
I confess you said everything feels wrong
But I'm trying to carry on

I gotta find the love
I gotta find a love
I gotta find the love
In the dark
I gotta find the love
I gotta find a love
I gotta find the love
Even when it's hard

When they shift that funny
And the doctor he said honey
This time the dove must fly alone
Surgeries and medication
But a postpone of vacation
Coz the only true you're making is by comb
I can fish she said even through the plane
One thing still remains

You gotta find the love
You gotta find a love
You gotta find the love
In the dark
You gotta find the love
You gotta find a love
You gotta find the love
Even when it's hard
You gotta find the love
You gotta find a love
You gotta find the love
In the dark
You gotta find the love
You gotta find a love
You gotta find the love
Even when it's hard

When i last saw Keri

She had some extraordinary
Glow about her face and she said goodbye
She said remember always be
A piece of grace and dignity
Coz those are things that never die
And when the very last words to say are gone
And you're barely holdin' barely holdin'on
Something sweeter, something brighter
Angel voices through the mire
Through the silence, through the fire
Reachin' out for something higher

You gotta find the love
You gotta find a love
You gotta find the love
In the dark
You gotta find the love
You gotta find a love
You gotta find the love
Even when it's hard
Find the love
Find the love
Find the love
Find the love
You gotta find a love
You gotta find the love
In the dark
You gotta you gotta gotta gotta gotta
Find the love
Even when it's hard

Something sweeter, something brighter
Angel voices through the mire
Through the silence, through the fire
Reachin' out for something higher
Find the love
Find the love
Reachin' out for something higher
Find the love
Find the love
Reachin' out for something higher
Find the love
Find the love
