

Fire and Gasoline

Lee Aaron

Love's combustible
You're untrustable
You gonna rust in the dust
With a little boy's lust that's destructible
And you don't know
Cause you just straight out go
And let me assist you
Slow french kiss you
While i step on you with my stilettos

R:
You're like fire on Gasoline
And making me scream

You're so respectable, undetectable
A covert in the dirt
With every short skirt that's collectable
Like a professional
I say why do i do the things i don't wanna do
Unconditional
I sound sad baby baby my bad

R:
You're like fire on Gasoline

And making me scream
You'll do what you say
Say what you mean

So listen up
You can tell everybody
That this is your song
Why can't love be simple at all
Cause i don't know what's killing me more
Crying the blues when you're here
Or when you're gone
Who hooo hooo
Hoo

R:
You're like fire on Gasoline
And making me scream
You'll do what you say
Say what you mean

Who hooo hoo
You're like fire on Gasoline
You'll do what you say
Say what you mean
Say what you mean
Say what you mean
Say what you mean
Say what you mean
