

# If You Don't Love Me Anymore

Lee Aaron

They say it's all in the way we look at things  
One weighs up the other down  
You say it's black I say white or grey or brown  
I send you round the bend where  
We used to tear up the town  
Whatever made you happy  
Makes you sad and blue  
Whatever drives you crazy now  
Makes you want me too

If you don't love me anymore  
You'd sleep on it tonight  
My heart's been down this road before  
And won't give up without a fight  
If you don't love me anymore  
Just hold me one last time  
Cause it's the holding on  
That makes love that grow strong  
And makes this love so right

I had a dream we were lost in a summer rain  
Sun was up rain coming down  
We sailed in a green cabriolet  
With the top down  
Whatever makes you broken  
Makes you beautiful  
Whatever makes us all messed up  
Can one day be the glue

If you don't love me anymore  
You'd sleep on it tonight

My heart's been down this road before  
And won't give up without a fight  
If you don't love me anymore  
Just hold me one last time  
Cause it's the holding on  
That makes love that grow strong  
And makes this love so right

Don't give up now  
Don't give up now  
I feel the lush all in from your eyes  
Don't give up now  
Don't give up now  
Look here comes the sunrise

If you don't think you love me  
If you don't think you love me  
Forget the talk of breaking up  
Come on baby let's shake it up  
Take me out for one last sweet sweet ride

If you don't love me anymore  
If you don't love me anymore  
I won't give up without a fight  
If you don't love me anymore

Just hold me one last time  
Cause it's the holding on  
That makes love that grow strong  
And makes this love so right  
If you don't love me anymore  
If you don't love me anymore
