

# Nothing Says Everything

Lee Aaron

I would have captured an ocean of stars for you  
Lost you them all if you wanted me to  
But nothing says everything  
Three little words could have turned it around you know  
Is your pride doing fine back at ground zero  
Cause nothing says everything

Nothing to lose nothing to gain  
If you don't whisper sober cain  
Love is profound  
Love is insane like a thing you unchain  
I came in again

I would have captured an ocean of stars for you  
Lost you them all if you wanted me to  
But nothing says everything  
Three little words could have turned it around you know

Is your pride doing fine back at ground zero  
Cause nothing says everything

Out into space an empty place  
Where we once built a tower high  
Tell me how far limp to the heart  
Just like art and Mozart  
I , I , I

I would have captured an ocean of stars for you  
Lost you them all if you wanted me to  
But nothing says everything  
Three little words could have turned it around you know  
Is your pride doing fine back at ground zero  
Cause nothing says everything
