

# Number One

Lee Aaron

Baby baby you' been hurt before  
Walked out on love an' ya closed the door  
Sometimes forever sometimes just one night  
It don' always have to work out right.

Well I know what you're goin' through  
'cause I've been there before  
Give me a chance to change your attitude  
An' you'll be back for more, you'll be back for more

(I... know, you... know)  
I'm gonna be your number one  
(Some... day, one... way)  
I'm gonna be your... number one

Baby baby it's no use to hide  
I can see the passion, in your eyes.  
Don't think twice honey just let go  
There's so much of you I want to know

You say that you've been hurt inside  
Well I've felt the same way too  
But tonight could be our lucky night  
Oh baby can ya feel it, I can feel it too

(I... know, you... know)  
I'm gonna be your number one  
(Some... day, one... way)  
I'm gonna be your, number one

(I... know, you... know)  
I'm gonna be your number one  
(Some... day, one... way)  
I'm gonna be your, number one

Don't throw away this chance  
It could be sweet... romance  
Give me a sign let me know  
Here we go

Oh... (I... know, you... know)  
I'm gonna be your number one  
(Some... day, one... way)  
I'm gonna be your, number one

(I... know, you... know)  
When it's me an' you aww baby...  
(Some... day, one... way)  
Yeah yeah yeah yeah...  
Uh huh, come on

(I... know) come on (you... know)  
Well I'm gonna be your, number one...  
(Some... day, one... way)  
I'm gonna be your number one...  
(I... know, you... know)  
I'm gonna be your number one...

(Some... day, one... way)
