## **Make Memories With Me**

## Lee Ann Womack

Make memories with me Make memories with me Forget the one who might have been And the one who used to be Darlin' i've got love And you've got love And love is all you need Oh, oh baby make memories with me

Let me hold you closer than You've been held before Let love take you higher than the stars Ask me for forever I'll give you even more Just let me be the keeper of your heart

Make memories with me Make memories with me Forget the one who might have been And the one who used to be Darlin' i've got love And you've got love And love is all you need Oh, oh baby make memories with me
