

Little Lies

Lee Rocker

Sittin' at home waitin' for you
This time no excuses will do
Little lies that you've been tellin' me

Takin' the time thinkin' it through
Maybe this work but I know it's not true
Little lies that you've been tellin' me

Little white lies, little white lies
It's the little lies that make me think it's over
Little white lies, little white lies
It's the little lies that make me think we're through

Lookin' at life from your point of view
Hurtin' it's easy, lovin' it's hard to do
Little lies that you've been tellin' me

Oh, that's right

Little white lies, little white lies
It's the little lies that make me think it's over
Little white lies, little white lies
It's the little lies that make me think we're through

Takin' me back to the places I've been
Yeah, I've changed and I know it's a sin
Little lies that you've been tellin' me

You can't take back what's already gone
The doors are closed, it's time to move on
Little lies that you've been tellin' me

Little white lies, little white lies
It's the little lies that make me think it's over
Little white lies, little white lies
It's the little lies that make me think we're through

Sittin' at home, nothing to do
That's all right 'cause I'm through with you
Little lies that you've been tellin' me

Little lies that you've been
Little lies that you tell
Little lies that you've been tellin' me
