

Say When

Lee Rocker

Say when, you want to be my baby
When, you're feeling blue
If you send some words by little blue birds
Then, I'll come running home for you

When, you want to talk things over
When, you know it's true
If you let me know, honey
Then, I'll show you that I'll come running home for you

Just remember when you're tired of living all alone
I will always be as close to you as that telephone

Say when, you want to be my baby
When, you're feeling blue
If you send some words by little blue birds
Then, I'll come running home for you

Just remember when you're tired of living all alone
Well, I will always be as close to you as that telephone

Say when, you want to talk things over
When, you know it's true
If you let me know, honey
Then, I'll show you that I'll come running home for you

Say when, you want to be my baby
When, you're feeling blue
If you send some words by little blue birds
Then, I'll come running home for you
