

# Turn Your Car Around

Lee Ryan

Well it's not about them  
It's all about us  
Can you hear it again  
Or just take it on trust  
Yeah you still got a way to get out of this 1-story town

So you swallow your pride  
Put your heel on the gas  
And you're laughing inside about kicking your ass  
And you gotta stand up,  
If you don't then you're just falling down

Why don't you  
Turn your car around  
Forget your way back home  
Cos it's not me there anymore  
Turn your car around  
You're better off alone  
I'll pick myself up off the floor

So I tell you it's black,  
but you know that's white  
See everything's cool  
When you don't have to fight  
There's nothing outside  
In the darkness waiting for you  
And I wish it was true

Why don't you  
Turn your car around  
Forget your way back home  
Cos it's not me there anymore  
Turn your car around  
You're better off alone  
I'll pick myself up off the floor

We've all heard Tammy sing  
To girls stand by your man  
Like I know you can

Turn your car around  
Forget your way back home  
Cos it's not me there anymore  
Turn your car around  
You're better off alone  
I'll pick myself up off the floor (oh yeah yeah)

Turn your car around.....  
Turn your car around (ohhhhhh)  
Cos it's not me there anymore  
Turn your car around  
And make your way back home  
Turn your car around

Turn your car around

Turn your car around

Cos it's not me there anymore
