

# Rise N Shine

Leela James

Yeah  
I want everybody on the dancefloor  
Feel good, y'all  
That means you and you  
Everybody, come on  
Time to shine

Rise and shine  
Be the reason why the clouds never come again  
We gon' rise and shine  
Move the rain and let the sun come out again

You've been waiting for a long time, gonna live your life  
Don't let nothing keep you down now, hold your head up high

Walk in your purpose, let them see you get your drip on  
Make 'em notice, say your name, put that respect on it  
You know you got this and they can't stop this  
No one can block this

'Cause you were born to rise and shine  
Be the reason why the clouds never come again  
We gon' rise and shine  
Move the rain and let the sun come out again

All my queens  
Don't stop the show, gotta let 'em know you got the glow, yeah  
Stay proud  
And say it loud, now

Walk in your purpose, let them see you get your drip on  
Make 'em notice, say your name, put that respect on it  
You know you got this and they can't stop this  
No one can block this

'Cause you were born to rise and shine  
Be the reason why the clouds never come again  
We gon' rise and shine  
Move the rain and let the sun come out again

Everybody  
No more sitting down, forget what you're worried about  
Day comes after night and we gon' be alright  
No more sitting down, forget what you're worried about  
Day comes after night and we gon' be alright  
Come on  
Come on  
It's time you let it out, it's time you let it out  
It's time you let it out, it's time you let it out  
Come on, shine, shine, shine for me  
Come on, shine, shine, shine for me  
Come on, shine, shine, shine for me

'Cause you were born to rise and shine  
Be the reason why the clouds never come again  
We gon' rise and shine

Move the rain and let the sun come out again  
You were born to rise and shine  
Be the reason why the clouds never come again  
We gon' rise and shine  
Move the rain and let the sun come out again  
Rise and shine
