

Take Me

Leela James

Spend my life with you
Nothing could be more beautiful than that
If you ask, I do
You're all I've been dreaming of

Every part of me
All the breath I breathe
We'll be together
I belong to you
You belong to me
We'll last forever

Take me, take me
Just take me, just take me
Take me, all of me
However you want, babe
Take me, take me
Just take me, just take me
Whenever you want, babe
Take me
I'm willing to give you all of me
Take me

I only want to be close to you
Wrapped in your arms endlessly
I give you everything (I give you everything)
My heart, my love is all you need

Every part of me
All the breath I breathe (baby)
We'll be together
I belong to you
You belong to me
Ooh, we'll last forever

Take me, take me
Just take me, just take me
Take me, all of me

However you want, babe
Take me, take me
Just take me, just take me
Whenever you want, babe
Take me
I'm willing to give you all of me
Take me

Take me, completely
I'll always love you
I'll never leave
I'm here just for you
I promise, yes I do

Take me, take me
Take me, take me
I do
Ooh, however you want me

However you need me, baby
I'm willing to give you all of me
I wanna be your everything
'Cause you mean the world to me
Always in your life
By your side, until I die
I love you, I love you

I want to be in your life
Take me
Take me, just take me
Just take me, all of me
Take me
Take me how you want me, take me how you
However you want me
I'm here for you (take me, just take me)
I'm here for you (take me, just take me)
