

Carry It All Away

Leeland

Face to the flame,
I feel the heat when I speak Your name
Take this fear and melt it all away

Fall to the floor,
You touch me and the tears start to pour
And I don't feel the same anymore

Here inside the fire
One look in Your eyes and I'm not the same
You carry it all away!

You carry, carry it all away, carry, carry it all away....
All of my doubts, all of my fears, all of my pain erodes away
When I behold Your face, You carry it all away!
You carry, carry it all away, carry, carry it all away....

Feet off the floor,
You lift me up and I start to soar,
I'm seeing things that I've never seen before

You're inside my heart, I'm inside Your arms
And I'm not afraid, You carry it all away!

You carry, carry it all away, carry, carry it all away....
All of my doubts, all of my fears, all of my pain erodes away
When I behold Your face, You carry it all away!
You carry, carry it all away, carry, carry it all away....

My tears are washed away
My sorrow and my shame is
On Your shoulders, it's on your shoulders
I know You're in control
My future and my hope is
On Your shoulders, it's on Your shoulders...

You carry, carry it all away, carry, carry it all away....
All of my doubts, all of my fears, all of my pain erodes away
When I behold Your face, You carry it all away!
You carry, carry it all away, carry, carry it all away....
