

Don't Stay Away (till Love Grows Cold)

Lefty Frizzell

Please don't stay away so long darling I love you dear
with all my soul
And sweetheart there can never be no parting
If you won't stay away till love grows cold
We'll share all kinds of weather the rain the sun the
cold
If we can always be together our love just can't grow old
So please don't stay away so long darling don't stay away
till love grows cold
We'll share all kinds of weather...
