

Atomicide

Legion of the Damned

Downtrodden and humiliated,
Break through the crust of decay
(Disgusted by) decadence
And oppression to embrace the terror reign
The purest of all wars,
Most sacred of all strife
Warrior monk of the militant kind,
Prepare for the great sacrifice

My sacrifice
Atomicide
Nuclear death
Atomicide
Self detonate
Atomicide
Ultimate end
Atomicide

Years and years of gestation
In the desert womb of hate
Inverse crusader to infiltrate
And kill them in their urban waste
Absolute devotion, self-negation elevates
Like mountain wolves and widows black
(We) ride fearless into death

My sacrifice
Atomicide
Nuclear death
Atomicide
Self detonate
Atomicide
Ultimate end
Atomicide

The snake of chaos dreams aeons long undead
Yet it's poison liberates the breed of the damned
The terror god is rising from the sacred sands
The devotion of the assassin
They will never understand

Nuclear suicide
Strikes the urban heart
Alamut awake
Hear it's divine call
I am incarnate
The breath of Dajjal

The terror god is rising from the sacred sands
The devotion of the assassin
They will never understand

Nuclear suicide
Strikes the urban heart
Alamut awake
Hear it's divine call
I am incarnate

The breath of Dajjal

No honour no dignity no strength no faith
Unable to bear human loss
Weak civilizations (whither) in their decline
As the nuclear axe comes down
Rise again proud warrior of death,
Embodiment of the detonator
Unleash the atomic terror storm
And become the disintegrator

My sacrifice
Atomicide
Nuclear death
Atomicide
Self detonate
Atomicide
Ultimate end
Atomicide
