

# Slaves of the Southern Cross

## Legion of the Damned

Dark, from the shadow  
Come black forces so profane  
Hidden current, the opposer

He who sits at the left  
Source of power, lord of death  
Carnal master, lord of life  
Infernal blackest light  
Will be burning throne of lies

Slaves of the southern cross  
Exaltation of the lord below  
Slaves of the southern cross  
Adoration of the shrines of Sodom  
Slaves of the southern cross  
Chalice of the un-divine

Knights Templar, trampled crosses  
Worship of Baphomet  
At the stake they burned  
They paid with their lives

Slaves of the southern cross  
Exaltation of the lord below  
Slaves of the southern cross  
Adoration of the shrines of Sodom  
Slaves of the southern cross  
Chalice of the un-divine

Antinomian currents in the realms of the forbidden  
Gnostic embrace of inner god and beast  
Fearless, I do not shun the path of the perversion  
Carnal transcendence in lustful apostasy

Black witches on the sabbath  
They praise the unholy  
Black goat enchantress  
Dark mistress on fire  
Whip cracks, dark goddess  
Screams of pleasure, screams of pain  
Lilith lives on  
Our mistress of the beast

Slaves of the southern cross  
Exaltation of the lord below  
Slaves of the southern cross  
Adoration of the shrines of Sodom  
Slaves of the southern cross  
Chalice of the un-divine

From Samael and Lilith to Hekate, to Pan  
Dionysian ecstasies and the coming over man  
The unholy union of Babylon and beast  
The crooked path of carnal alchemy  
From the dark, from the shadow  
Comes black power so profane  
Hidden current, the opposer

He who sits at the left
