Solar Overlord

Legion of the Damned

Solar overlord Warrior priest of the sun Pillar of the ancient order God and beast as one

Solar overlord Spawn of the invincible sun Spartan discipline Imposed on the militant monks

Solar overlord Warrior priest of the sun We are the sons of death Calm in the storm

Solar overlord Spawn of the invincible sun Kali yuga reigns This cycle of regression

Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust
Overlord, shade of Hades
Bringer of death

Bow down for the solar overlord

Kneel down for the solar overlord

A million sun storms in my mind Transcending mundane madness Ascending to heights unknown I will unleash the thunderbolts

We are the thrusting horns
The order of the bull
The blood will be spilled
To celebrate the black sun
Raven of dispersion
Brought to the streets
Explosive charges and debris
Chaos to be unleashed

Overman, titan height Promethean thrust Radiant anger, bursting hatred Burning lust

Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one
Raven of dispersion
Brought to the streets
Explosive charges and debris
