

Undead Stillborn

Legion of the Damned

The destroyer of god
The lord of the dead
Angel of the abyss
Abaddon reigns

Face the unspeakable abomination
Undead stillborn
Senseless life tormenting me
Undead stillborn
Indulge in absolute negation
Undead stillborn
I dream the termination of my self
Undead stillborn

The destroyer of god
The lord of the dead
Angel of the abyss
Abaddon reigns

Inescapable sense of suffocation
Undead stillborn
Growing need to self destroy
Undead stillborn
Suffer the twilight of existence
Undead stillborn
Armageddon has arrived
Undead stillborn

I am dead since my day of birth
Yet still I walk this goddamned earth
Sleepwalking among the living
There's no choice but rise or perish

Enter the void of nothingless
Undead stillborn
Armageddon has arrived
Undead stillborn

I am dead since my day of birth

Yet still I walk this goddamned earth
Sleepwalking among the dead
There's no choice but rise or perish

The destroyer of god
The lord of the dead
Angel of the abyss
Abaddon reigns

Cast aside and godforsaken
Undead stillborn
I was born to hate this world
Undead stillborn
Suffer the twilight of existence
Undead stillborn
Armageddon has arrived
Undead stillborn
