

# Beautiful World

Leigh Nash

You colored my world with smiles and laughter  
And you filled my heart with hope and love  
And because of that love I got what I'm after  
Of you, of life we're dreaming of

And some days may disappoint us  
But there's light at the end of each night

It's a beautiful world  
When you're watching through love's eyes  
All of the valleys don't seem so low  
If you keep your dreams where your heart is  
We follow you wherever you go

We're gonna leave and they will follow  
Let 'em see what hope and love can bring  
'cause we're gonna stand enters our sorrows  
And with voices clear and strong we'll see

Now my eyes are clearly focused  
On the good and now I can see

I was waiting patiently  
For the world to change around me  
Now I see it's you and me  
I can't change it

If you keep your dreams where your heart is  
We follow you wherever you go

Wherever you go  
Wherever you go
