

Dreaming out Loud

Leigh Nash

Your voice is a perfect chorus
Your words a melody
I can't forget
Your name is heaven on my lips
I can't blame
These feelings on the cheap fernet
I want what's simple
I just want us

Holding my breath, making wishes in my head
I wanted so badly to kiss you, instead
You kept talking and talking
Can't recall what you said
I fell in love
But you were just dreaming out loud

Stay here
Please don't go anywhere
We've got wolves at the door
Always hungry for more
I want what's simple
I want your love

Holding my breath, making wishes in my head

I wanted so badly to kiss you, instead
You kept talking and talking
Can't recall what you said
I fell in love
But you were just dreaming out loud

Baby, please wake up
I'm in over my head
So please baby wake up

Holding my breath
Counting backwards from ten
I want you so bad
Why can't you see it?

You keep talking, stop talking
And just take my hand
I'm so in love with you
Maybe I'm dreaming out loud
Baby, wake up
I'm so in love with you
Maybe we're dreaming out loud
