

Christmas Will Be Soon

Lemon Demon

We must not fear this as it grows near
Christmas will be soon
Luring like the moon

Decorate your untamed nature
Christmas will be soon

Now, let go of Solstice and save our souls
Christmas will be soon
Very very soon

Idols come and go
Melting like the snow when sunlight comes
Play their drums
Play their drums

Cut down our twig shrine
Sit 'round the big pine beneath a star
This is who we are

One last toast to has-been ghosts
Ooh, Christmas will be soon

Let's stop burning Yule logs
In faith of fool's gods our kids won't know
Idols come and go

Ordinary folk floating like the smoke
We are adrift
Take this gift
Christmas!

Oh, now not one more word
I'm looking forward
So change your tune
Christmas will be soon

And the winds have changed now (The winds have changed)
And we are strange (And we are strange)
Now will you change your tune? (It will be soon)
Christmas will be soon

Decorate your untamed nature
Christmas will be soon
One last toast to has-been ghosts
Ooh, Christmas will be soon

Christmas will be soon
Christmas will be soon
Christmas, Christmas, Christmas
