

The One

Lemuria

You make me feel like milk phlegm
Coating the back of a throat
I always annoy you
Get it out, get it out of your system
Get it out, get it out of your system
Show some feeling to me
Be the one you used to be
Get it out, get it out of your system
Get it out, get it out of your system
Show some feeling to me
Be the one you used to be

Why do you love me
I'm a mosquito bite on your arm
Itching until your bleeding scars
Why do you love me
Why do you love me
