

## Below

Leprous

All of my stories are below (Below)  
Beneath the surface cannot grow (Grow, grow, grow)  
Curled and naked I defer (I defer)  
To shaky thoughts all in a blur

Every single fear I'm hiding  
Every little childhood memory I bury  
Every single fear I'm hiding  
Every little childhood memory (Bury)

And I will lie, lie  
Keep it all together  
Lie, lie, lie

Sitting on top of the facade (Top of the facade)  
Built this tower to surpass (Surpass)  
I can't remember why I'm here  
Only why I need to disappear, oh

Every single fear I'm hiding  
Every little childhood memory I bury  
Every single fear I'm hiding  
Every little childhood memory (Memory)

I will lie, lie  
Keep it all together  
Lie, lie  
Will it last forever?  
Lie, lie  
Keep it all together  
Lie, lie, lie

Lie, lie  
Keep it all together  
Lie, lie  
Will it last forever?  
Lie, lie  
They keep it all together  
Lie, lie, lie
