

What I'm Looking For

Lera Lynn

Turn back the days I got miles to go
Now I see I'm running out of road
Head down and blind I've been driving though the night
And I been chasing down a fading light

And it slips away, fades away a little more
Fades away every day still I don't know what I'm lookin' for

I'm listening now and I wanna go
I just haven't found the right way home
Let go the oars, I hear no one really steers
We're all just holding on to fantasy

And it slips away, fades away a little more
Fades away every day and I don't know what I'm lookin' for
Yeah it seems so far away but I don't know what I'm lookin' for

It slips away, fades away a little more
Fades away every day still I don't know what I'm lookin' for

Now I see I'm running out of road
Head down and blind I've been driving through the night
And I been chasing down a fading light
