

Just Another Fool

Lesley Gore

Just another fool
That's all I'm to you
Just another fool who can't get through to you

You've been lying
And I've been crying
But I guess I've loving you
Cause i'm just another fool
You dangle on the string

Waiting for the love
I know you'll never bring

I know each night
Some other girl
Is holding you tight
If it were only me
Then I wouldn't be
Just another fool

But I pray some day
I will hear you say
You are the only one to it comes
I'm just another fool in with you
