

LALALA

Leven Kali

Lalalala

Everybody knows we're all pink on the inside

You're just like the rest of us

Everybody knows we're all pink on the inside babe, on the inside baba

yyy

Imma smile when I see you if you muslim or Hebrew

If you eating or u need food

Cause all of that is see-through

But we know people on the down get so evil

In the darkness there is the moon

So if someone is looking down

We gon' show them what we sound like

You know the music

You know the words

This song is my song

This song is yours

I wanna hear the world sing lalala

I wanna hear the world sing lalala

I wanna hear you sing lalala

Lalala

I wanna hear you sing

I wanna hear you sing lalala

Everybody knows we're all pink on the inside

You're just like the rest of us

Everybody knows we're all pink on the inside babe, on the inside baba

yyy
