

Mine

Leven Kali

Wait

Yeah, it's been three whole weeks (Three whole weeks)
Since I saw your face (Since I saw your face)
And girl, I need you here, uh (And girl, I need you here)
When I call your name, yeah

'Cause I get high when I think about love
I get by when I think about us
Don't know why, but I been holding on so long, yeah

Now I can be your G (I can be your G)
And you could be my babe (And you could be my babe)
'Cause it feels so real (Feels so real)
I know this can't be fake (Ah)

I get high when I think about love
I get by when I think about us
Don't know why, but I been holding on so long

I just wanna make you mine, mine, mine (Mine)
I just wanna make you mine
Find a place to hide
We take a trip down the other side
I just wanna make you mine, mine, mine (Mine), uh
Find a place to hide
We take a trip down the other side
(Wait)

Uh uh, yeah
Been a while and I was trying to find the words, babe
How you fly, but you still keep it down to earth, babe
I know everybody wanna have the world, babe
But I just wanna hear you say I'm yours

I get high when I think about love
I get by when I think about us
Don't know why, but I been holding on so long

Oh, I just wanna make you mine, mine, mine (Mine)
Find a place to hide
But take a trip down the other side
I just wanna make you mine, mine, mine (Mine)
Oh, I wanna make you mine baby, baby
Find a place to hide
We take a trip down the other side

That was good (Wait)
Yeah, yeah, yeah, yeah, uh

I can see, yeah, you and me, yeah, we are
HD like seventy, yeah, we are
We'll be we seventy still going in
Symphony, no violin
Take a shot, I'll make it in, yeah
You are, you are the only
The moral to my story every time

We're only getting older (Older now)
Will I ever make you mine, mine, mine?
I can't focus, you're the reason why I wrote this
Almost seems like we don't notice
We're the same

So you get high when you think about love
You get by when you think about us
Don't know why, but you been holding on so long (Oh, so long)

I'm just saying you're mine, you're mine, yeah, yeah
You're mine, you're mine
You're mine, you're mine
(I done said it 'bout a hundred times)
You're mine, you're mine
(I done said it 'bout a hundred times, yeah)
You're mine, you're mine
You're mine, you're mine
You're mine, you're mine
You're mine, you're mine
