

# Dreamworld

Leverage

You're drifting to a dream  
Lost in the frozen night  
Shivering as the wolves start howling

Out of place, out of time  
Watch the shadows come alive  
Echoes in the wind, bells tolling

R:  
I'm the angel fly with me  
Leap into eternity  
Dreamworld, dreamworld is calling  
Close your eyes and ride the night  
Let the darkness fill with light  
Dreamworld, dreamworld  
You're falling down...

Beyond all fantasies  
Your memories flashing by  
Don't know if you're awaken or dreaming

See the old turning into young  
The dead come back to life  
Laughing at all you believe in

R: (3x)

Take my hand I'll lead the way  
Through fire and ice to light of day  
Dreamworld, dreamworld  
You're falling down...  
Down down...
