

# Gone

## Leverage

I see you in my dreams  
I can't escape the sore memories  
I wonder how I'll ever move on  
When you're gone

I'm not a drifter anymore  
I've done that road, had enough, seen it all  
I wonder how my heart will move on  
When you're gone  
When our love is gone

R:  
If love can't live eternally  
A million years, a thousand centuries  
Why do our foolish hearts  
Swear to love forever  
Why do we take that road  
If we can't stay on it together

Is it only make believe  
Is it only broken hearts and empty dreams  
I wonder how my heart will move on  
When you're gone  
When our love is gone

R:

When our love is gone  
How can our hearts move on  
When our love is gone

R:

When our love is gone  
How can our hearts move on  
When our love is gone
