

## A Mood I Was In

Levon Helm

You know she was only a mood I was in  
She wasn't my baby, not even my friend  
A soft puff of cotton, a willful perfume  
A beautiful flower that was never to bloom

When I first met her, her thoughts renewed  
But I made her happy 'cause that was our mood  
She had no possessions to call her own  
She came unattended and left on her own

Beautiful flower that took me away  
A beautiful fragrance that make my day  
Beautiful flower of nature's own plan  
She was only a mood I was in

Somewhere she's walkin' just out of sight  
So if you see her, turn on the light  
And if she's hungry and you can be food  
You can love her if that is your mood

Beautiful flower that took me away  
A beautiful fragrance that made my mind quake  
Beautiful flower of nature's own plan  
She was only a mood I was in
