

Driving At Night

Levon Helm

There's somebody knockin' on my door
Now who can it be?
I hope it ain't the tax collector
A-tickin' on me

This is no lie
It's just like driving at night
Everybody flashes their lights on you
And they're shining too bright

There's somebody knockin' on my door
Now who can it be?
I hope it ain't my old girlfriend
A-tickin' on me

You know this is no lie
It's just like driving at night
Everybody flashes their lights on you
And they're shining too bright

There's somebody knockin' on my door
Now who can it be?
I hope it ain't the police down here
A-tickin' on me

You know this is no lie
It's just like driving at night
Everybody flashes their lights on you
And they're shining too bright
