

I Came Here To Party

Levon Helm

Well it's three o'clock in the morning
And my mouth it feels like fuzz
It's a long time til daylight
And I'm about to lose my buzz

Where's all the music
The night is still young
And I came here to party
And have a little fun

Bring on all the women
And open up a keg
I've been saving up all week
And I wanna shake my leg

Now I don't need no one to tell me
When it's time to go home
I came here to party
And I wanna get it on

So punch your pretty song on the jukebox
Something about a croc left in the field
And I know you've heard the one that I speak of
I believe a woman's hand she was who seal

Your beer is good and cold
I believe I'll have some more
And I might do the alligator
Right down on the floor

But I know I will pay tomorrow
And that's more than a hunch
But like they say on the TV show
You only go around once

So let me hold you one more time little darling
I love the way you feel in my arms
And then show me the way to my cowboy Cadillac
And we will party until the break of dawn

Just let me hold you one more time little darling
I love the way you feel in my arms
And then show me the way to my cowboy Cadillac
And we will party until the break of dawn
