

# Milk Cow Boogie

Levon Helm

Well I woke up this mornin' and I looked at my door  
I can tell it was my milk cow by the way she lows  
If you see my milk cow you better drive her on home  
Ain't had no milk and butter since that good cow been gone

Well I tried everything you know to get along with you  
Now let me tell you baby what I'm gonna do  
I'm gonna quit my trying, gonna leave you alone  
If you don't think I'm leavin' you can count the days I'm gone

You're gonna need my love, need it someday  
Then you're gonna be sorry you treated me this a way

I said good evening, don't the sun look good going down  
I said good evening, don't the sun look good going down  
Don't that ol' army cot look lonely when your baby ain't around

Well I feel like milkin' but my cow won't come  
I feel like chewing it but my milk won't come  
Please please, please don't do me wrong  
If you see my good milk cow you better drive her on home
